Subject: Re: IIN-D407-802-1-RevA Page8

Follow Up Flag: Follow up
Flag Status: Completed

Marc,

For the gas springs you would like with extra dampening lets use the X added to the end of the part number. This is currently the annotation we use for added dampening.
For your stock you can return it and we will either rework or exchange them to provide the extra dampening.

Thanks,
Nolan Fehr

Please note LS Technologies will be closed for our July shutdown : **July 11 - 13 & July 23 - 27th.**

On 7/06/12 6:41 AM, Marc Bellavance wrote:

Hi Nolan,

Hope this finds you well.

We (Dart and our customer) are happy with the gas spring samples with extra dampening you provided to us just about two weeks ago. We would like to change our D3552 drawing to call for extra dampening on D3552-15/-17/-19/-25/-27. We're thinking that this should be reflected by adding "W/EXTRA DAMPENING" to the description but we also feel like the LS Technologies P/N should be changed as well to reflect that and ensure we get the extra dampening on the gas springs listed previously. Can you please provide new P/N's?

Currently the part numbering is as follows:

Dart P/N	LS Technologies P/N
D3552-15	B8-154-387 -300N
D3552-17	B8-154-387-156N
D3552-19	B8-154-387 -060N
D3552-25	B8-148-475-300N
D3552-27	B8-148-475-156N

Perhaps your new P/N's could be completely different or changed to something as simple as adding an "X" to designate "extra dampening"?
